

WANTED: TOP-GUN CNC SETUP ENGINEER!!

PAY UP TO \$40/ HR

G&G Mfg. Co. Skills Requirements:

- Own and manage all technical aspects of new customer programs from engineering launch until hand-off to production.
- Provide expertise in estimating, process and fixture design, tooling selection and optimization, programming, initial hands-on setup and training of operators.
- Be able to quickly analyze and solve problems on their own using 10 years of setup & trouble shooting experience on CNC lathes, vertical and horizontal machining centers
- Setup and consistently machine production parts to tolerances of +/- .0001
- Be proficient with cad/cam & machine tool programming
- Layout optimized processes for production runs of 500 to 5000 hours and be able to do so on parts made of carbon, alloy & stainless steels; high temperature alloys; most aluminum & copper alloys
- Optimize applications of cutting tools, work-holding, and electro-mechanical automation to increase quality and productivity of jobs
- Work both 100% independently and as part of a team in a fast-paced contract machining environment
- Lead teams of 5-15 people to attack machining, fixturing, and process issues
- Engineer in process inspection procedures on a wide range of gages and equipment
- Have excellent, verbal, written, and computer skills in appropriate technical software and in MS office, esp. Excel and PowerPoint.

STOP!!

TO QUALIFY, ALL CANDIDATES MUST FILL-OUT [SELF-EVALUATION](#)

**PLEASE EMAIL RESUME AND SELF-EVALUATION TO:
RECRUITING@GGMFGCO.COM**

**OR BRING RESUME TO:
4015 RED BANK RD. CINCINNATI, OH 45227**
